Art Unit: 1617

Claims 1-14 and 17 are pending in this application.

Applicants' claims are drawn to a solid adjuvant composition comprising an alkoxyated dialkylaryl surfactant of formula I in combination with one or more fillers:

Wherein Ar = aryl which is substituted with at least two C₁₋₃₀ alkyl radicals, and

R³ = H, C₁₋₃₀ hydrocarbon, sulfonate, phosphonate, or acyl.

Also claimed are methods of making the solid adjuvants (claim 6), agrochemical¹ compositions (claims 8-11) and methods of making them (claims 7 and 17), and methods of using the agrochemical compositions (claims 12-14).

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-14 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bratz et al (US 6,242,382).

Bratz et al teaches solid mixtures of sulfonylurea herbicides and adjuvants comprising polyalkoxylated alkyl ethers (abstract). Other herbicides, including those recited herein, may be added to the compositions (col 8, line 61, through column 10). Additional surfactants may include alkylaryl polyether alcohols as claimed herein (col 12, lines 22-39).

No unobvious or unexpected results are noted; no claim is allowed.

¹ Claim 10: diflufenican, fenoxaprop, metamitron, ethofumesate, phennmedipham, desmedipham, P-herbicides

Art Unit: 1617

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to S. Mark Clardy whose telephone number is 571-272-0611. The examiner can normally be reached on 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreenivasan Padmanabhan can be reached on 571-272-0629. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
